Student Number: 1488373 14 Nov 2024

Mr Juan Huang

## STATEMENT OF RESULTS

This is an unofficial Statement of Results. It includes all results that are available on the day that the Statement is ordered. If formal documentation is required, please obtain an academic transcript.

Visit ask.unimelb (https://ask.unimelb.edu.au) for more information about the release of results, the WAM, the issue of academic transcripts, the grading scheme, etc.

## **Master of Electrical Engineering**

| Year                      | Code      | Title                                  | <b>Points</b> | Mark | Grade |
|---------------------------|-----------|--|---------------|------|-------|
| Advanced Standing Granted |           |  |               |      |       |
|                           | COMP20005 | Intro. to Numerical Computation in C   | 12.50         |      |       |
|                           | ELEN20005 | Foundations of Electrical Networks     | 12.50         |      |       |
|                           | ELEN20006 | Digital Systems                        | 12.50         |      |       |
|                           | MAST20029 | Engineering Mathematics                | 12.50         |      |       |
| 2024                      |           | Electrical Network Analysis and Design | 12.50         | 071  | H2B   |
|                           |           | Signals and Systems                    | 12.50         | 072  | H2B   |
|                           | ELEN90054 | Probability and Random Models          | 12.50         | 073  | H2B   |
|                           | ENGR90021 | Critical Communication for Engineers   | 12.50         | 075  | H2A   |
|                           | ELEN30011 | Electrical Device Modelling            | (12.50)       | ***  | ***   |
|                           | ELEN30013 | Electronic System Implementation       | (12.50)       | ***  | ***   |
|                           |           | Signal Processing                      | (12.50)       | ***  | ***   |
|                           | ELEN90066 | Embedded System Design                 | (12.50)       | ***  | ***   |

Weighted Average Mark for this course 72.750

**End Of Statement Of Results**
